stylish space to gather.

Beyond the interiors, the residence unfolds into a truly unique garden sanctuary. Professionally designed and fully landscaped by the acclaimed team behind the Boathouse aesthetic, the gardens have been transformed into a striking yet incredibly low-maintenance retreat. The space has attracted significant attention, featured in the Sydney Private Garden Show and highlighted in Sydney garden and landscape publications. Among its many distinctive features are six reclaimed Sydney wharf poles sourced near Garden Island, adding character and a subtle nod to the area's maritime heritage.

Adding further versatility is the charming separate cabin, affectionately known as the "She Shed". Designed by landscape architect Olof Von Sperl of Adore My Garden and built by respected local builder Dave Mundell, this unique space has drawn widespread attention including a filmed feature on Sunrise and various press articles. With reclaimed doors, a stained-glass window and thoughtful detailing throughout, it offers a perfect retreat as an artist's studio, dining pavilion, or peaceful escape. The living roof of faux grass, cascading jasmine and clever design ensures privacy for neighbours while filling the garden with beautiful seasonal fragrance.
