27 Charlton Close, Bowral

Architecturally Inspired Home in a Leafy Bowral Cul de Sac

Set within a leafy Bowral cul-de-sac, this architecturally inspired 3 bedroom home brings together warmth, light and thoughtful internal design in a highly convenient Bowral position.

The interiors were shaped with the involvement of an award-winning architect whose work has been recognised across NSW and Europe, including awards in Munich and Slovenia, together with an invited exhibition at the Vienna Architecture Biennale. That design influence is evident in the home's sense of proportion, storage, light and quiet everyday functionality.

Large double glazed almost full height windows frame beautiful views of the garden and surrounding trees, drawing natural light and greenery into the home while enhancing privacy and comfort. The modern kitchen features an induction cooktop, while the updated bathrooms include a particularly generous ensuite to the main bedroom.

Underfloor heating to tiled areas, ducted heating and air conditioning, solar panels, excellent storage and a secure enclosed backyard all contribute to a home that feels warm, practical and beautifully
