Some homes never go out of style.

Set behind a timeless brick facade, this is a home that has evolved with the needs of modern family living while retaining the generous proportions that have become increasingly sought after. With a focus on quality rather than trends, it combines multiple living areas, comfortably sized bedrooms and a dedicated study with warm, light-filled interiors that feel instantly comfortable.

At its centre, the renovated kitchen connects effortlessly with the surrounding living spaces before extending outdoors to an expansive covered alfresco. Beyond, the backyard provides plenty of room for children to play, established gardens to enjoy and a substantial powered workshop that offers exceptional versatility as a studio, workshop, home gym or creative retreat.

Both bathrooms have been beautifully renovated with floor-to-ceiling tiling, while solar panels and double-glazed front windows add to the home's everyday comfort and efficiency. A timeless neutral palette and an abundance of natural light complete an interior that feels both fresh and enduring.
