Inside, the home features a thoughtfully designed floorplan, with polished timber floorboards enhancing the coastal vibe throughout. The main living area overlooks a pretty courtyard, and a timber deck provides the perfect spot for summer BBQs and relaxed evenings after a day at the beach.

The kitchen, living and dining area is open plan, creating a comfortable and practical space for everyday living. The main bedroom, complete with ensuite, is well separated from the other two bedrooms, all of which include built-in robes. The main bathroom offers a desirable three-way layout, making day-to-day living easy with no morning traffic jams.

A separate laundry provides direct internal access to the generous 6 x 6 double garage with electric door, adding further convenience.

The features of this property are many; just to name a few include low-care brick and tile construction, close-by access to beaches and a range of local shops, and a cost-effective self-managed strata that helps keep ongoing outgoings to a minimum. The way the complex is designed means it presents more like three individual residences than a typical unit development.

If low-care living close to the beach is high on your list, this property is well worth your attention. The home can also be offered fully furnished, allowing you to move straight in and start enjoying the lifestyle immediately, if that's of interest.
