you picture home, this is the kind of outdoor space that gives you options.*

Beautifully styled with on-trend furnishings, the home showcases just how effortlessly the spaces can be enjoyed. Natural light fills the interiors, while the practical single-level layout creates an easy connection between everyday living, dining and entertaining.

At the heart of the home, the modern kitchen connects naturally with the main living zone. While there is one central living area, the layout is cleverly defined into separate dining and formal lounge spaces, creating a sense of separation and purpose without compromising the open feel of the home.

Four comfortable bedrooms provide room for everyone, with built-in wardrobes, ceiling fans and easy-care vinyl flooring. The master bedroom enjoys the privacy of its own ensuite, while the family bathroom features a separate bath and shower, complemented by a separate toilet for added everyday convenience.

Practicality continues with a separate internal laundry offering direct external access, a remote double lock-up garage with its own access to the yard, security screens and air-conditioning.

Even the home's position offers something a little different. Set back from the street with a more private and sheltered front entry, the long driveway leads you into the property before the block expands significantly at the rear. The result is a backyard that feels tucked away from the street and offers an impressive sense of space once you step outside.
