The property is equipped with 2 separate dwellings. The first consisting of a 2-bedroom 1-bathroom house with a full kitchen, its own yard area and a nice deck to sit and relax on. It also has its own electrical meter and water tank. This gives you the option of renting the property or using it as a holiday home for the family.

There is also a 4-car garage or shed with an awning that will accommodate 2 more cars if needed. There is also a hard stand area with cyclone anchor points for caravans or boats.

Behind the shed you will find the cable car lift which takes you up to the main house. Therefore, there is no carrying the groceries up the stairs, just jump on the cable car and relax all the way to the top.

Once at the top you are greeted by a lovely terrace area which gives a stunning entrance feel to the property.

Upon entering the home, you will be amazed at the quality of the timber feature throughout. With the elegant granite bench tops in the kitchen highlighting the beautiful timber cabinetry while overlooking the amazing views outside. This certainly is the heart of the home.

The open living space provides a cool spacious area for relaxing with the family as it also opens onto the deck. Off the living area you have an office space and sitting room that could be closed in to create more bedrooms if needed.

All 3 bedrooms have split system air-conditioning and 2 bedrooms having built in robes. With the main bedroom having a walk-in robe and an ensuite for ultimate convenience.

The main bathroom features the same tropical feel with timber features and a view from the window showcasing the beautiful nature outside.

With everything this property has to offer we just can't show you everything. If you would like to spend your afternoons looking over all this then don't miss your chance, book your inspection today to come and check this place out for yourself.
