Brand New Residences —A Rare Opportunity

In a market where quality homes are increasingly difficult to secure, the completion of these brand new residences at 16 Dillon Glade presents a genuinely rare opportunity.

Recently finished and thoughtfully designed, these homes deliver a refined balance of contemporary architecture, practical living spaces and high-quality finishes. Every element has been carefully considered to create homes that feel both impressive and comfortable from the moment you walk through the door.

The interiors are defined by spacious open-plan living areas that feel bright, open and welcoming. Large windows and high ceilings invite natural light throughout the day, while the designer kitchen sits at the centre of the home, finished with stone surfaces, generous cabinetry and modern appliances that make everyday living effortless.

Upstairs accommodation has been designed with comfort and privacy in mind, with well-proportioned bedrooms and a beautifully appointed master suite complete with a stylish ensuite and double vanity. Throughout the homes, warm tones and quality materials create an understated elegance that will suit a wide range of interior styles.

Outdoor entertaining areas extend the living space and provide a private setting to relax or host guests, while the modern architectural design gives the homes a strong and contemporary street presence.

While the homes themselves are the standout feature, the setting quietly complements the lifestyle on offer. Positioned within a quiet cul-de-sac in Joondalup's established Candlewood pocket, the area is known for its mature eucalyptus trees, leafy surroundings and relaxed atmosphere. Residents enjoy the convenience of being within walking distance of Currambine Train Station and close to the open spaces of Blue Lake Park, providing both connectivity and green space within easy reach.

With three brand new homes available under one offering and priced from \$1,000,000, this is an exceptional opportunity to secure a newly built residence in a market where opportunities like this remain scarce.
