Upon arrival, you are greeted by lush established greenery creating a private natural screen from the road, with the home set securely behind dual security gates. Stepping inside, you will immediately appreciate the crisp neutral interiors, high gloss flooring and warm natural light that flows beautifully throughout the residence. Soft carpets to the bedrooms add comfort, while the clever layout provides both practicality and flexibility.

The master bedroom is generously sized and offers a walk-in robe together with direct access to the spacious two-way bathroom, complete with separate water closet. Bedrooms two and three are both well proportioned, ideal for children, guests, a home office or additional living flexibility.

As you move through the home, floor-to-ceiling picture windows frame the stunning paved central courtyard, filled with greenery and natural beauty. This striking feature creates a seamless connection between inside and out, allowing light to pour through the home while providing a tranquil focal point rarely found in properties of this style. The central verandah has been cleverly designed on an angle to welcome the winter sun while shielding the home from the harsher summer heat, adding year-round comfort and efficiency.

The spacious family, dining and kitchen zone forms the heart of the home and offers an expansive open-plan area that can be configured in a variety of ways depending on your lifestyle needs. Whether entertaining guests, relaxing with family or working from home, the space adapts with ease. The kitchen is well appointed with ample bench space, generous cupboard storage, pantry, gas cooktop, pull-out drawers and breakfast bar for casual dining.

To the rear of the home, a superb decked entertaining area with pergola and pull-down blinds creates an all-weather outdoor living zone that the current owners have greatly enjoyed. Functioning as a true extension of the indoor living area, it is the perfect place for weekend gatherings, quiet morning coffees or evening meals with friends and family.

Beautiful established gardens wrap around the home, providing greenery, privacy and a calming atmosphere, while still remaining wonderfully low maintenance. Side access on one side leads to the central courtyard, while the other provides access to the garage and sliding door entry into the dining area.

Further enhancing the home is reverse cycle split system air conditioning to the family room, ceiling fans throughout, a solar panel system, single garage with internal access, front and rear CrimSafe security doors, rainwater tank for gardening, front and rear sprinkler systems, hallway linen storage, separate storage room adjacent the bathroom, and a laundry with direct external access.

A home that combines privacy, space, natural light and everyday convenience in one attractive package, 1A Horley Terrace is a property worthy of your inspection.
