### The Ultimate Dual Living Home

Tucked away at the end of a quiet, family-friendly cul-de-sac, this beautifully designed home offers a flexible layout perfect for multigenerational living. A standout feature is the cleverly integrated dual living zone, part of the main home, yet able to be completely closed off with a door for privacy. This section includes two bedrooms, a bathroom, a full kitchen, and its own private living area with direct access to the alfresco. It's an ideal setup for families caring for elderly or disabled loved ones, or for those who need extra space and independence within the home.

The main residence is warm and welcoming, with a spacious kitchen positioned at the heart of the home. Two skylights with remote-controlled blinds fill the space with natural light, enhancing the open feel. The kitchen features ample bench space, quality appliances, and a walk-in pantry, all designed to overlook the generous alfresco area through wide sliding doors, making entertaining and family gatherings effortless. A separate lounge offers a quiet retreat, perfect for relaxing or spending quality time away from the main living zones.
