cabinetry and stainless-steel appliances. It combines practicality with a clean, contemporary finish and connects effortlessly with the spacious open-plan living area.

Step outside to the north-facing balcony and the outlook becomes the star of the show - expansive Broadwater views that are particularly impressive by day and beautiful as the lights come on in the evening.

The Hammond Towers Difference:
Hammond Towers is a building with genuine history and character. Built in the early 1970s, it is one of Southport's original high-rise apartment buildings and has stood the test of time. The building is constructed in solid brick and offers the substantial proportions associated with apartments of its era.

The complex comprises just a small number of apartments across seven levels and offers amenities that make apartment living easy, including lift access, a sparkling inground swimming pool and undercover car parking.

Importantly, Hammond Towers also offers very reasonable body corporate costs for a building providing a lift and swimming pool, making it an attractive proposition for both owner-occupiers and investors.
