Invest in Your Future

Offering the best of both worlds, this four-bedroom, two-bathroom home combines comfortable family living with outstanding future development potential.

Positioned on a prime corner block with R60 zoning, the property presents an excellent opportunity for a future street-front development (subject to Council and WAPC approval), making it a smart choice for owner-occupiers, investors, and developers alike.

The home itself is well suited to a growing family, featuring multiple living areas including an open-plan kitchen, meals, and family zone. A separate enclosed patio provides the perfect space for kids, a playroom, or an additional living area.

The kitchen offers generous bench space, a stainless-steel rangehood, and a dishwasher, while the main living area is finished with quality flooring, split-system air conditioning, and a wood heater for year-round comfort.

The master bedroom includes a walk-in robe and private ensuite, while additional features include ducted evaporative air conditioning and security screens throughout.
