A progressive hybrid solar power system with 8kw of solar panels, 10kw off-grid inverters, 3kw Victron grid-tie inverter plus battery storage. Use the power, save it for later or sell it back to the grid. The system cleverly automatically swaps to mains power if needed so no power anxiety here!

Self-sufficiency continues with a small orchard, tunnel house, hot house, propagating house and raised vegetable garden beds. Fruit trees include cherries, peaches, apples, nectarine, sugar maples and quince, with raspberries, blackcurrant and boysenberry plants.

1 Hectare of pine forest provides your own firewood, and numerous manageable paddocks with stock water makes lifestyle living easy. A double garage, single garage and workshop with multiple versatile sheds including a cute old railway-carriage style garden shed add to the storage solutions.

This is the chance to enjoy the relaxed country life you've always dreamed of! The owners are prepared to negotiate an extensive chattels list, so get in touch today to arrange a viewing and take the first step to secure your slice of paradise.
