

226a Buckland Road, Matamata

PRODUCTION, SCALE, AND VERSATILITY

Opportunities like this are rare. With an impressive combination of scale, flexibility, and infrastructure, this dairy unit is not likely to be matched on the current market.

Milking 430 cows through a modern 38 aside herringbone, producing a credible 5 yr average of 172000 kgs/ms, with minimal inputs. Tweak the system to increase production simply by integrating more of the dry stock land into the milking platform. Currently all 150 replacements plus 20 bulls are grazed on farm year-round.

A unique feature of this property is its 5 titles and 6 homes, 3 of which could be considered as a main dwelling.

Dairy farms with this amount of scope are incredibly hard to find. We highly recommend that you give this property serious consideration by registering your interest early.
